

Quantum Techniques Academy Guide 2018

“Tell me and I forget, teach me and I may remember, involve me and I learn.”

~Benjamin Franklin

Role of the Academy

Over the years we have had many inquiries into creating a certification program for Quantum Techniques. The current QT model includes a small group of trained practitioners, and in the last few years we have added the [QT Elite](#)* Mentoring program which includes a number of students trained in the most advanced aspects of QT. Now we are excited to offer our QT Academy Certification Program!

Why Join

This 3-tiered program allows people to connect with QT training at the level of their interest and ability and furthers our goal to teach more people how to use QT and bring this unique form of energy healing to the world. If you have a passion for QT this program is for you! It offers an opportunity to learn directly from our founders and provides a means for health care professionals to add QT to their repertoire, and if desired, practice QT full time.

Who Can Join

Each tier of the academy requires the purchase and associated proficiency of certain products and the ability to pass written and oral tests given by Dr. Stephen and Beth Daniel. Satisfaction of these requirements within the different levels allows the individual to be officially recognized as such on the QT website. Additionally, academy members will be on the cutting edge of advancements in QT, the most comprehensive energy healing modality in the world today.

* You can participate in the [QT Elite](#) Mentoring without joining the QT Academy
